

EarthTronics® UFO LED Highbay

A full family of products easily replace up to 400 watt HID fixtures. DLC Premium Performance.

Key Features

- + Easily replace up to 400 watt H.I.D. Highbay fixtures
- + Provides excellent visual acuity for accuracy
- + DLC® Premium product operating at 130+ lumens per watt
- + Rated for damp location
- + Ships standard with 6 foot 300V 18/3 SJT and mounting ring
- + 13,000 to 33,000 lumen available
- + 4kV surge protector built in
- + IP65 rated for damp location
- + 100-277VAC & 200-480 VAC available
- + 0-10V dimming is standard
- + 4000K and 5000K available with high CRI 80+
- + Complete and ready for installation

DESCRIPTION

EarthTronics HBU Series LED High Bay available in 4000K and 5000K, offering a true “one-for-one” LED alternative for any commercial or industrial space requiring a high lumen light source for high ceilings. The HBU Series delivers a higher lumen per watt output with world-class chips. Drivers and DLC Premium certification meet even higher efficiency and lumen maintenance requirements than past highbay models.

The lightweight design and standard mounting enables quick installation and retrofitting of interior spaces. The fixtures are in a unique design and size that maximizes cooling providing a long life product with high lumen maintenance.

The HBU Series LED Highbay features an IP65 wet location use rating for exposed environments and are shipped complete with a 6’ cord to enable easy installation. The LED driver is full functioning with 0-10V dimming on all models and is standard for 100-277V operation. A 200-480V full functioning driver is available as well. High quality Samsung LED chips provide for excellent lumen maintenance. L92 is at 50,000 hours and L80 at 120,000 hours (58°C).

OPTIONS AVAILABLE

- + 60° Polycarbonate Prismatic Shade
- + 70° Aluminum Shade
- + Suspended Hook
- + Microwave Sensor
- + LED Washdown Series available with IP69K

APPLICATIONS

- + Manufacturing Facility
- + Food Safety & Processing (on Select Models)
- + Cafeteria
- + Auditorium
- + Warehouse
- + Gymnasium

DLC® PREMIUM PERFORMANCE

EarthTronics selected world-class LED chips and high quality drivers engineered to perform at an efficiency level necessary to meet and exceed DLC premium standards.

OPERATION

Standard UFO highbay is 100–277V and 200-480V is available. All models include 0-10V dimming. The wet location rating allows these fixtures to operate in adverse warehouse and manufacturing applications.
