EarthConnect®

Network Lighting Controls

EarthConnect, Bluetooth® networked lighting control system makes it easy for commercial facilities to maximize energy savings, improve comfort and achieve building code compliance for indoor and outdoor applications. Sensors automatically read light levels and determine how to best illuminate your space. It's simple and intuitive. Using the EarthConnect app, nodes can be commissioned without the need for a gateway or Internet access.

Scalable to Both Small and Complex Buildings - Bluetooth® Wireless Grouping - Full Range Dimming and Scheduling - Easily Adapt Line Voltage Systems - Ideal for New Construction, Renovation, or Lighting Retrofit Projects

FAQ's

What are the benefits of lighting controls?

What major trends are occurring in lighting controls?

What should distributors look for in electrical contractors?

What should distributors look for in manufacturers?

What should electrical distributors be looking for when matching a lighting control solution to an application?
